What is RPP

DoIT&C had developed a common payment gateway service - Rajasthan Payment Platform (<https://rpp.rajasthan.gov.in>) - that integrates banks, mobile wallets, credit cards, debit cards, UPI and Bharat QR for smooth electronic & mobile payments. RPP will facilitate departments and organizations under the State government for two way electronic payments. Residents can pay taxes, utility bills, fee etc. to concerned departments with complete flexibility. Similarly, departments can disburse funds to beneficiaries, vendors and other in a seamless and integrated way.

Features

- Departments do not require signing of separate agreement with banks, aggregators or service providers for online payment gateway service
- Plug and play, simple integration with no charges for installation of API software
- Funds credited directly into beneficiaries account
- 40 debit cards, 12 mobile wallets, 65 banks and UPI integrated for payments
- Minimal transaction processing fees due to centralized negotiation
- Major banks available for disbursement facility
- Availability of real-time MIS reports to respective departments
- Better control of department on payments and receipts via online mode
